Worldwide remote-access thanks to our own cloud

Worldwide remote-maintenance without additional costs thanks to our own cloud

Your devices connect to your own cloud, no matter where they are in the world. Only your devices are in your own private cloud, no one else has access to the cloud. In addition, you can provide each device with its own connection-password, so that the individual systems are protected despite the private cloud.

No registration on any portals, no hidden additional costs, your devices in your own cloud are always accessible.

This is how remote maintenance/remote access is fun.

Protection for data-dump and modification

You want to protect your system against unauthorized access and changes? No problem, with the S7-firewall you secure your system against unauthorized access and thus prevent deduction or alteration of your system and process data.

| |
|---|
| Profinet life cycle monitoring and alarming |
|---|

Identify impending failures in your Profinet.
Creeping aging will be displayed to you very detailed.
The Profinet-Watchdog give you the change to react before something happens.

| |
|---|
| Simple and uncomplicated remote maintenance |
|---|

Simple and uncomplicated remote-access to your devices/systems via the Internet
VPN-tunnel, registration at any portal is not necessary, activate the device and select and communicate with the opposite system
No great effort to implement access. Use of the devices without consulting IT, no time-consuming commissioning procedure
All your devices in your own cloud, no access from third-party CONNECT-devices to your devices/systems

Detect unnecessary idling

Detect the efficiency of your plant/machine by EtherSens-Energy-devices. Log the preset parameters and evaluate them then later. Find so unnecessary idle-times and increase so the efficiency.

Data logging

Cyclic data logging or data logging on occasion is realisable. The log data will be transmitted e.g. once a day via e-mail.

Special data logger functions can be implemented on request and are not part of the basis functions.
