Worldwide remote-access thanks to our own cloud

Worldwide remote-maintenance without additional costs thanks to our own cloud

Your devices connect to your own cloud, no matter where they are in the world. Only your devices are in your own private cloud, no one else has access to the cloud. In addition, you can provide each device with its own connection-password, so that the individual systems are protected despite the private cloud.

No registration on any portals, no hidden additional costs, your devices in your own cloud are always accessible.

This is how remote maintenance/remote access is fun.

Wireless around the Mitsubishi-PLC

Move wirelessly around the Mitsubishi-PLC and communicate for example ONLINE in the status

Remote maintenance of your S7-PLC-device via LAN / Internet

You have access to a on-site network and your PLC-device has no LAN-connection? No problem, plug the S7-LAN on the PLC-device and you will have immediate access to the PLC from afar.

S7-300/400 (MPI/DP) to S7-300/400 (MPI/DP)

Coupling S7-controller with MPI/Profibus at S7-controller with MPI/Profibus via network

Current S7 panels via WLAN to the S5 controller

Connect each S7-TCP-IP panel to your S5.

Now also available via WLAN for mobile workstations.

PARALLEL several panels and even simultaneous PG connections possible.

Include hard-to-reach places in your ERP system.

Link S7-TCP-IP Panel to MPI Profibus over WiFi

Use the latest S7-TCP-IP panels for your MPI / Profibus.

Thanks to WLAN also usable for mobile platforms or cranes.

Connect several nodes at the same time via a network module.

Simultaneous access from different systems possible.
