Please make sure to update your drivers before using our products.

Data logging of your PLC

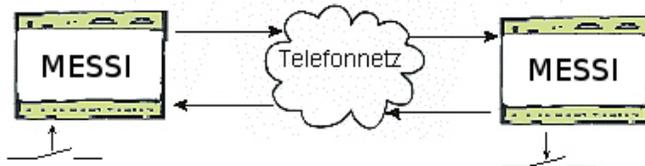

You shortly need a logging of your PLC's operating states respectively are on the way of figuring out a problem and have no datalogger? No problem, connect the PC, start the PG-2000-software with "option datalogger", define relevant variables, appoint timestamp and then the recording starts running immediately. The data will be stored on the fixed disc according to the configuration.

Data backup S7-PLC over MPI/Profibus on SD-card via dig. IO

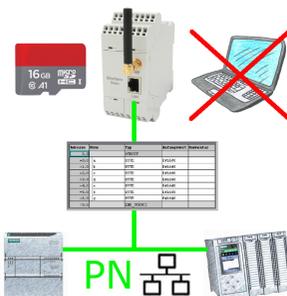

Via digital input triggered DB-backup/-restore without additional PC via MPI/Profibus to SD-card

Remote switching with MESSI to MESSI

The MESSI will be called by conventional Telephone or by mobile-phone. With a direct voice message and DTMF-tone dialling the corresponding output will be set-up. If a switching operation has come off a speech output will confirm it.

Data backup S7-PLC PN-port on SD-card

S7-PLC triggered DB-backup/-restore without additional PC via PN-port on SD card
