## Wireless around the Pilz-PLC

Move wirelessly around the Pilz-PLC and communicate for example ONLINE in the status

## PLC coupling (data exchange between PLC's)

Your pumping stations report the water levels of the central control via telephone network. The central office itself can of course transmit commands/messages to the substations as well. Therefore no dedicated line is required, it's sufficient when the stations connect via network (DSL-router).

Send Email with LOGO!
-----------------------

Send of all kinds of eMail-messages controlled by the LOGO!-Control

## Remote-maintenance Siemens-S7-PLC with PN-Port

## Remote-maintenance of a Siemens-controller with network-connection via secure VPN-tunnel of the TeleRouter

## Universal router

You need to be realized a flexible device for the remote maintenance of your systems? No problem with the TELE-Router you have a device that you can set easily and quickly to the requirement. Whether you need a connection between the modem and LAN, modem and WAN or LAN and WAN.

## Easy Web-Visualization

You need a web-visualization which is kept simple, with no additional Plugins like ActiveX, Flash(R) or Java(R) and is compatible with most general browser? Then you have found with S7-Visu the solution. Visualizations under Windows(R)/Linux on PC-based systems are just realizable as those for tablets or Phones with browser support. The simultaneous operation of multiple browsers at the same time is possible.
